PETITION FOR WITHDRAWAL OF THE NOTICE OF ABANDONMENT

Mail Stop Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The Applicant of U.S. Patent Application No. 09/892,753, Kurt A. MacKay, hereby requests the Office of Petitions to withdraw the Notice of Abandonment mailed on February 18, 2005, received by Applicant's attorney on February 28, 2005.

The Notice of Abandonment refers to Applicant's failure to timely file corrected drawings. However, the drawings were never objected to. Copies of the office actions filed in the present application are enclosed herewith. The only reference to corrected drawings is the checked corrected drawings box on the Notice of Allowance. A copy of the Notice of Allowance is enclosed herewith. Applicant believes this box was inadvertently checked in error because the drawings were never objected to and any errors in the drawings were never communicated to the Applicant.

Application No. 09/892,753

The Issue Fee Transmittal was properly deposited via First Class Mail on December 21, 2004 as required by 37 C.F.R. § 1.10. A copy of the Issue Fee Transmittal is enclosed with this petition. The Acknowledgement postcard received from the PTO mail room was stamped December 27, 2004. A copy of the Acknowledgement card is also enclosed.

Therefore, Applicant feels the Notice of Abandonment was entered in error and respectfully requests that the application be revived. It is believed that the error was inadvertently made on the part of the Patent and Trademark Office, and therefore no fee is due in relation to this matter. However, please charge any fee due to Deposit Account No. 16-0631 to ensure prompt revival of the application.

Respectfully submitted,

Wendy J. Cusick

Notice of Fee Increase on October 1, 2004

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2004, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" because some fees will increase effective October 1, 2004. See Revision of Patent Fees for Fiscal Year 2005; Final Rule, 69 Fed. Reg. 52604, 52606 (May 10, 2004).

The current fee schedule is accessible from WEB site (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2004 (or mailed with a certificate of mailing on or after October 1, 2004), the issue fee paid should be the fee that is required at the time the fee is paid. See Manual of Patent Examining Procedure (MPEP), Section 1306 (Eighth Edition, Rev. 2, May 2004). If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See MPEP Section 1308.01.

Effective October 1, 2004, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$685.00
 - By other than a small entity..... \$1,370.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$245.00
 - By other than a small entity..... \$490.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$330.00
 - By other than a small entity..... \$660.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

Claims 7-10 are allowed.

Claims 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1,2,3,4 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Puranda fig 1 in view of fig 3.

Puranda discloses a device comprising a support plate (38) attaching means (42) in the form of bolts arms (48) a rotating means (52,58) and a bag (54) located on the ends of the arms.

Puranda however in fig 1 does not disclose his arm member as being rectangular ✓

Fig 3 of Puranda however discloses a device having a cross bar member (62) having a rectangular cross section.

Given the teaching of manufacturing bar member having varied shaped cross section the examiner notes that it would have been obvious to one of the ordinary skill in the art to manufacturing the cross member bar assembly (48) as having a rectangular cross section. } (M)

In regard to claim 3, element 28 is considered as a rotating axle support and element (52) is a bearing member.

Art Unit: 3764

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. 1) Note the overall device of Noftsinger and Forrest.

Note the suspendable features of Schechner et al, and Moore et al

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Response to applicants arguments dated 8-25-03.

Applicant remarks have been fully considered but are not deemed persuasive, in overcoming the prior art of record. The examiner is convinced that the prior art of Puranda discloses a hub member 52 which is capable of rotating an element 28 of station (16) which is positioned above and rides along a top end of element (58).

Puranda discloses no locking mechanism which would prohibit rotation of element 52. The applicant's assumption could possibly be correct, however the disclosure of Puranda fails to disclose means to support applicant's assumptions.

Claims 7-10 are allowed.

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3764

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Puranda.

Claims 1-4 and 6 are rejected for the same reason as set forth in the rejection of the same in the office action of 4-23-03.

Any inquiry concerning this communication should be directed to Jerome W Donnelly at telephone number 308-2668.
